

## **KDSL Global Math Classroom Observation Tool or M-COT**

<http://knowdoservelearn.org/tool/math.html>

### **What is it?**

The KDSL Math Classroom Observation Tool is an online resource for self--assessment, peer observation, or administrator evaluation.

### **Who is it for?**

Math teachers  
Math colleagues  
Head of departments  
School administrators

### **When to use it?**

During math instruction  
When coaching with math teachers  
While facilitating math professional learning

### **How to use it?**

There are 3 ways to use the KDSL Math Classroom Observation Tool.

- 1---Teachers can use it to self assess their math instruction.
- 2---Peers can use it to collaborate and learn from math colleagues.
- 3---Administrators can use it for informal or formal observations.

This is part of a Math Program Review, which can be conducted virtually or face to face. For more information contact KDSL Global at [kevin@kdslobal.com](mailto:kevin@kdslobal.com).
